Australian Pigs Ears

Description

Pigs Ears are a great entertaining chew for dogs and can keep your dog content for ages. They also help to reduce tartar build up on your dog's teeth making them a great dental chew. These ears are great for any sized dogs, they are an entertaining long lasting chew for small-medium dogs and a yummy tasty pork treat for larger dogs/strong chewers. For larger strong chewers check out the Cows Ears as they are a bit larger than pig's ears.

You can pay around \$3 or \$4 in the shops and they might not even be Australian. So pick them up for much much less from us in volume.

Watch out for lower quality imports – if it's cheaper – there is likely a reason! These are high-quality Australian Pig Ears, every single one of them in the box! We dry them locally in QLD and we know the source, so we don't compromise our standards.

Product of Australia: Manufactured in Australia using 100% Australian Pigs.

Single-ingredient product with no preservatives, additives, colours, added sugar, or anything else!
